

Tear It All Down
Thea Gilmore

B
Pressed up against this shop front
E
Drawing faces there in Crayon
B F#
It s a long way from the pocket full of rain
B
And you have walked the streets for hours
E
With your loose change and your flowers
B F#
And now I ll learn your body like a nursery rhyme in braille
B E
It s a simple explanation for the paths that you have taken
B F
You have stumbled from the cradle to a prayer
B E
But in this darkened room we have got heart enough to burn
B F#
We can dance away the hours we can leave our questions there
B G A B G A
And we ll tear it all down
B E
So welcome to our winning streak no broken bones or old deceipts
B F#
Its you and me versus this little town
B E
We re the rag dolls in the gutter we re the curses that they ll mutter
B F#
And you will still be trying on my heart just like a crown
B G A B G A B G A
B G A
And we ll tear it all down
D C#m E F#
I know your tactics all the practice this bravery took
D C#m E F#
And the flags are flying you re trying out a different look
B
E
So there s a candle in the window I ve got a lousy history of tomorrows
B F#
So I ll spill the beans in every little sound
B E
You are the creaking of the door you are the Chorus of applause
B F#
You are wishbones and the axis that these songs will spin around
