

**This Is Where I Came In**  
**Thelma Houston**

This Is Where I Came In

**Fmaj7**            **Bbmaj7**  
No need to tell me  
**Fmaj7**            **Bbmaj7**  
Cause I can see it in your eyes  
**Abmaj7**           **Dbmaj7**  
I ve seen that look before  
**Abmaj7**            **Bb7**  
That s why it comes as no surprise, yeah

Chorus:

**Ebmaj7** **Abmaj7** **Dbmaj7**            **Bb7**  
So        this is where you re gonna leave me  
**Ebmaj7** **Abmaj7** **Dbmaj7**            **Bb7**  
So        this is how our story ends  
**Ebmaj7** **Abmaj7**                        **Dbmaj7**                        **Gbmaj7**  
I can tell that this is where you re gonna leave me  
**Cm**                                        **Bbm7**                                        **Abmaj7**  
Outside looking in, all alone again. Which way to the door?  
                     **Eb**    **Abmaj7** **Eb**    **Fmaj7**  
This is where I                came in

**Dm**                        **C**                                        **Gm**                                        **Bbmaj7**  
And all my life has been a technicolor feature  
                     **Dm**                                        **C**                                        **Gm**                                        **Bbmaj7**  
That I have to watch in tears from the thirteenth row  
                     **Dm**                        **C**                                        **Gm**                                        **Bbmaj7**  
And I have lost every guy that I have ever loved  
   **Am7**                                        **Gm**                                        **G**  
And they never change the story and they never stop my show

This is my exit  
And I know without a doubt  
I came in lonely  
And that's how I m going out

Chorus

**Dm7**                                        **F7**  
And I think I m gonna cry, feeling like I m gonna die  
Now I m gonna cry deeling like I m gonna die
