

**Echoes**

**Theory of a Deadman**

**B**

You were there, now you re gone  
Big mistake, how do I move on?

**E**

Love was wasted and it s tainted now  
But it s still there, fading in and out

**B**

We were so much better then  
Catch yourself saying: Remember way back when?

**E**

Perfect were the days spent staying out  
Heaven was ours to paint, you were so much fun

**F#**                      **G#m**              **E**

So why is the world so cold?

**F#**                      **G#m**              **E**

How did you get so cold?

**B**

Say it once, say it twice  
Over and over in my mind

**E**

What went wrong with my life?  
It echoes, echoes  
It echoes in my mind

**B**

Say it once, say it twice  
Over and over in my mind

**E**

What went wrong felt so right  
It echoes, echoes  
It echoes in my mind

**B**

(It echoes, echoes)

**B**

(It echoes, echoes)

**B**

When did it all go completely sideways?  
Yeah, it s so easy in hindsight to say

**E**

But what if our past is our future s clue?  
Cause I don t wanna live if I can t be with you

**F#**                    **G#m**    **E**  
why is the world so cold?

**F#**                    **G#m**    **E**  
How did we get so cold?

**B**  
Say it once, say it twice  
Over and over in my mind

**E**  
What went wrong with my life?  
It echoes, echoes  
It echoes in my mind

**B**  
Say it once, say it twice  
Over and over in my mind

**E**  
What went wrong felt so right  
It echoes, echoes

**F#**  
It echoes in my mind

**G#m**            **E**  
Like a bridge we keep burning forever

**F#**                    **G#m**            **E**  
I thought we were dying together

**F#**                    **G#m**                    **E**  
I must move on if I want to get better

**F#**                    **G#m**                    **E**  
But you know I ll still love you forever, ever, ever

**B**  
Say it once, say it twice  
Over and over in my mind

**E**  
What went wrong with my life?  
It echoes, echoes  
It echoes in my mind

**B**  
Say it once, say it twice  
Over and over in my mind

**E**  
What went wrong felt so right  
It echoes, echoes

**B**  
It echoes in my mind

(It echoes, echoes)  
(It echoes, echoes)

**E**  
(It echoes, echoes)

**B**

It echoes in my mind

**E**

(It echoes, echoes)

**B**

It echoes in my mind
