

## Heaven

### Theory of a Deadman

This is my first guitar tab on this site.  
I have made it as accurate as I possibly could  
and even put the chord changes exactly where they  
are supposed to change. So I hope you think it is right,  
and enjoy!

Capo: 1

Intro:

**F Dm**

Verse 1:

**F**  
No, don't you be afraid, we can always talk about it,  
**Dm**  
No need to medicate, cause I know you're strong without it...  
**F**  
You got me through the days, when I thought I couldn't face it,  
**Dm** **Bb**  
Let me count the ways, the love we have you can't replace it...

Pre Chorus:

**Bb** **F**  
Just hold on, I'm not that strong...

Chorus:

**F** **C** **F**  
There's a little piece of heaven, right here where you are...  
**C** **F**  
The fact that you keep trying, is what sets you apart...  
**C** **Dm**  
Help me find a reason, and I'll help you find the way,  
**Bb** **F**  
To get rid of all your pain, little by little, day by day...

Verse 2:

**F**  
Now you're far away, and I'm alone to cry about it...

It's not a better place, when you die and leave me here to say...

Hold on, I was never that strong...
