What Was I Thinking
Theory of a Deadman

I feel
F#
so dirty in
C#
my hotel room

Got a king size bed
D#m
that smells like cheap perfume
F#
And I said to myself: Tyler what were you thinking
Tyler what were you thinking

My head is
B
heavy from all
F#
the drinks last night

I had two
C#
too many Jagers I donâ€™t feel so right
F#
Am I crazy as hell or is the whole place spinning

Oh Iâ€™ve just
B
made a big mistake
Wide awake

F#
Iâ€™ve got girls outside my window
And girls outside my door
Itâ€™s too damn easy

I can
C#
take it anymore

And I
F#
got a house in every city
I got too much to loose
I got everything any guy could want
But all I really want is you

B

I'm feeling guilty for all
F#
the things I've done
I've got a stomach full of nuts and alcohol is numb

Can
G#m
I

B
leave with myself or will
F#
I get what's coming

I say
C#
I'm sorry and that there's
B
nothing to feel

But it all
F#
went to hell without you here
And I'm eating myself so I guess I'll keep drinking
So please just stay for day
Cause you can't be the one that got away

I got whisky
C#
on the table
F#
And whisky on the floor

I've got friends who will
B
forget

F#
me

Banging on the
C#
tuba's

door

And I got a house in
F#
every

city

I got too much to loose

I got everything any
B
guy could want
But all I really want is you
What I was I thinking x 3
When all I really want is you

Please,
A#
please come and save my soul tonight

Please, please come and
F#
make everything right
I've got girls outside my window
And girls outside my door
C#
I've got girls
F#
about to take their close of

And I got a
B
house

F#
in every city
I got too much to loose
I got everything any guy could want

But all I really want
B
is

you

What
F#
I was I thinking x 3
When all I really want is you
What I was I thinking x 3

When all I really
C#
want is you
Tyler what were you thinking
