This is on the Babyteeth album and the Caucasian Psychosis compilation album.

OK, here s a poor transcription. God knows what the guitar is doing most of the time in this, but if you want to strum along with some chords, these might be the ones to use. But then again, they might not. Oh, and the lyrics are totally wrong too :-)

lover

Take the knife on up the
hill,
And kiss the girl goodbye

[On top of the bass playing A A F C, the guitar starts on 10 on the B string, but then does some funky stuff.]

A F C
Venus is dancing down your dress
A F C
And her eyes, now means to me even less
A F C
And her hair, the knot that he pulled it tight
A F C
It s only the knot that he pulled it tight

F C G
Got get him out of your system, leave now, he ll follow, leave now,
he ll follow
F C G
Get him out of your system, leave now, he ll follow, leave now, he ll follow

[Back to the 10 on the B over the bass s A A F C]

A F C
The one thing I ve looked for all my life
A F C
Is killing everything I ever want
A F C
Trust me, to give my firstborn up
A F C
I love him, he s all I ever want

F C G
Got to get him out of your system, leave now, he ll follow, leave now,
he ll follow
F C G
Get him out of your system, leave now, he ll follow, leave now, he ll follow
F C G
Get him out of your system, leave now, he ll follow, leave now, he ll follow
F C G
Got to get him out of your system, leave now, he ll follow, leave now,
he ll follow

[Muck around on A5 now.]
