What if the sky falls and shoves me into the ground?
Would you pray for me? Or would you pull me out?

Yeah, I know you re no angel but I m stuck right now
 C#   **C#**   **D# D#**
Don t walk away pretendin you don t know how

Like a fat kid suicide believing they re wrong
And you were givin up early and goin out alone
Yeah, I know you re no angel but I m stuck for friends
Once I m out, I won t be back there again

         Fm
And you re cryin all the time (You re cryin now)
     Cm
Heaven help me (Help me)
         C#   **D#**
 Cause your heart s as dead as mine

Give me two minutes of your twisted love
