

**Lonely Cryin Only
Therapy**

F# C# B B }x2

What if the sky falls and shoves me into the ground?
Would you pray for me? Or would you pull me out?

F# C# Ebm B
Yeah, I know you re no angel but I m stuck right now
B B C# C#
Don t walk away pretendin you don t know how

Like a fat kid suicide believing they re wrong
And you were givin up early and goin out alone
Yeah, I know you re no angel but I m stuck for friends
Once I m out, I won t be back there again

Chorus:

F#
And if you re lonely (You re lonely)
Ebm
And you re cryin all the time (You re cryin now)
Bbm
Heaven help me (Help me)
B C#
Cause your heart s as dead as mine
We all go slowly (Go slowly)
And time is catchin up (Time s catchin)
If you would only (Up only) **F# Ebm C# }x2**
Give me two minutes of your twisted love

Bridge:

B F#
Everyday it gets much better
Everyone s on your side
B B Ebm B
Skies colliding in your name
B C#
Strike it up and lights and step outside cause you know what s goin on

Chorus.

(Your twisted) Your twisted love }x3
