

Nowhere Faces
These Animal Men

First of all some Tabs. I transcribed the intro- and the verse-part. The other parts are more or less played with some coords, except some very short fills which should be very easy to figure out.

I hope the transcriptions are not too bad.

ANY comments, suggestions and corrections are WELCOME!!!

INTRO

```
e:----5/7--7--5--12--10--9--9--7--7--7--7b(8)--5--5-5-5--7-7--5-|
B:----5/7--7--5-----7--7b(8)--5--5-5-5--7-7--5-|
G:-----|
D:-----|
A:-0-----|
E:-----|
```

In the C#m F#m .. part each coord is written down just 1 time but actually it s played more than 1 time. If you know the song or listen to the record it should be no problem, actually it s just a rythm-thing.

VERSE

INTRO

VERSE

I took another key today
It s only for one day
Building up the tension
To a great roof raising question
It was never a reason for lying

VERSE

Getting a sharpened knife for a slice of soul
For hours of boredom in a graffited hole
Our alternative people
Make a dash for something simple
It was never a question of lying

Bm E A
All of this news is probably obvious
 F#m
But not to us
Bm E
It means that we can t lose
 E5 F#5 G#5 C#m A
With these nowhere faces now

INTRO

VERSE

A patient envoy sends a word
Unfortunately it won t be heard
For those who sit upstairs
Thinking this pleasure just must be theirs
It was always a question of lying

All of this news is probably obvious
But obviously not to us
It means that we can t loose
With these nowhere faces now

SOLO (Keyboard)

All of these news is probably obvious
But it s not to us
It menas that we can t loose
With these nowhere faces now

Info: E5, F#5, ... means Power Coords, I hope that s correct!
For example: E5 means 022xxx, F#5 means 244xxx, ...
