

INTRO

VERSE

I took another key today  
It s only for one day  
Building up the tension  
To a great roof raising question  
It was never a reason for lying

VERSE

Getting a sharpened knife for a slice of soul  
For hours of boredom in a graffited hole  
Our alternative people  
Make a dash for something simple  
It was never a question of lying

Bm                    E   A  
All of this news is probably obvious  
      F#m  
But not to us  
Bm                                    E  
It means that we can t lose  
                  E5 F#5   G#5 C#m A  
With these nowhere faces    now

INTRO

VERSE

A patient envoy sends a word  
Unfortunately it won t be heard  
For those who sit upstairs  
Thinking this pleasure just must be theirs  
It was always a question of lying

All of this news is probably obvious  
But obviously not to us  
It means that we can t loose  
With these nowhere faces now

SOLO (Keyboard)

All of these news is probably obvious  
But it s not to us  
It menas that we can t loose  
With these nowhere faces now

Info: E5, F#5, ... means Power Coords, I hope that s correct!  
For example: E5 means 022xxx, F#5 means 244xxx, ...
