D **G**
I d like to see you on my big yellow bike
C **Em**
With two training wheels tightly holding yourself

As you break into the day

D **G** **C**
But now your gone, and you re far away, far from reflections of you
Em
Of when you weren t dazed, it s a shame

E
So what about your princess?
(So what about your princess?)
Nobody s gonna come and save your day
So what about your princess, crying on the front steps,
Nobody s gonna come and save your day

E
Say way your way (way your way) save your day
Say way your way (way your way) save your day

F
Break-break-break break it up

C
Shake-shake-shake shake it up

D **G**
We know, we know you all to well (x2)

D **G**
I d like to see you sailing high like a kite

C
With those strings holding you tightly
Em **D**
as you float above where you would never stray

G
But now you re grown up and far away

C
far from every birds eyes view,

Em
of when you were caged, it s a shame

E
