Album: The Spine

Intro/chorus lick:
```
e-----------0-----10--------------0------
B---------7-----x-----------------10---
G-----------------------7--6----------
D-------9-----9--------0-7------7--------
A----------------------------------------
E---7------------------------------------
```

Palm mute all notes except those on the tenth fret.
The x ed note is on the ninth fret; it s just very muted.

Verse:
B/D# E   B/F# E/G# A   E/G# B/F# E
You   said some thing be fore you   left
B/D# E   B/F# E/G# A   E/G# B/F# E
Some   thing I   was   not to   for   get

Pre Chorus:
A
Then

                                             E
Is when I maybe should have wrote it down
                                      F#7
But when I looked around to find a pen
                                     A   B7
And then I tried to think of what you said

Chorus:
B   E D   A/C#   B   E D
      We broke in two
A/C#   B E D A/C#
Busted through
         B E D
Broke in two

A/C#   F#m   B   E   C#m
I would go back to the top of the day from scratch
        A   F#m7   B7
If I thought that this thing could be fixed
A   B   G#m C#m   F#m7 F#7/B
Though sadly I d do exactly the same thing as when

```
B   E  D    A/C#      B   E  D
        We broke in two
A/C#    B E D A/C#
Busted through
          B E D
Broke in two

(solo)
```
