

Narrow Your Eyes
They Might Be Giants

Artist: They Might Be Giants

Song: Narrow Your Eyes

Album: Apollo 18

Verse 1:

I don t want to change your mind I don t want to think about your mind
they say love is blind I don t think you re blind
You don t want to understand and I don t want to shake your father s hand
and walk in the sand and act like a man

Chorus:

I get on the bus and ride past our stop - and though I m late I can t get off
I just can t bear to tell you some lies
narrow your eyes
narrow your eyes

Verse 2

We ll take back everything we said - split up all the things and move ahead
forget how you said to split your side off the bed

Chorus:

I get on my bike and ride down our block
ride through the world thru the green lights
but when I think of all your advice
I narrow my eyes
narrow my eyes
