I don t want to change your mind I don t want to think about your mind

and walk in the sand and act like a man

I get on the bus and ride past our stop - and though I m late I can t get off  
I just can t bear to tell you some lies  
narrow your eyes  
narrow your eyes

Verse 2

We ll take back everything we said - split up all the things and move ahead  
forget how you said to split your side off the bed

Chorus:

I get on my bike and ride down our block  
ride through the world thru the green lights  
but when I think of all your advice  
I narrow my eyes  
narrow my eyes
