Artist: They Might Be Giants
Song: The Statue Got Me High
Album: Apollo 18

Verse 1:

G F D
The statue got me high
G F D
The statue got me high
G F C D C Em D
The monument of granite sent a beam into my eye
G F D
The statue made me die
G F D
The statue made me die
G F C D Em F G
It took my hand it killed me and it sent me to the sky

Chorus:

Em C D
The stone it called to me
G Em C Em C C D D
(And now I see the things the stone has shown to me)
Em C D
A rock that spoke a word
G Em C Em C C D D
(An animated mineral it can be heard)
Em C D G C Em D
And though I once preferred a human being's company
Em C D G C Em D
They pale before the monolith that towers over me

Verse 2:

The statue got me high
The statue got me high
The truth is where the sculptor's chisel chipped away the lie
The statue made me fry
The statue made me fry
My coat contained a furnace where there used to be a guy

Chorus 2:

The stone it called to me
(And now I see the things the stone has shown to me)
A rock that spoke a word
(An animated mineral it can be heard)

And as the screaming fire engine siren filled the air
The evidence had vanished from my charred and smoking chair

Post Chorus 1:

	Em	D	G	C	
And	what	they	found	was	just a statue
Em	D	G	D	C	D
Standing	where	the	statue	got	me high
	Em	D	G	C	
And	what	they	found	was	just a statue
Em	D	G	D	G	
Standing	where	the	statue	got	me high

Sax Solo:

Chorus 3:

And now it is your turn
(Your turn to see the stone and then your turn to burn)
The stone it calls to you
(You can't refuse to do the things it tells you to)
And as the screaming fire engine siren fills the air
The evidence will vanish from your charred and smoking chair

Post Chorus 2:

And what they found was just a statue
Standing where the statue got me high
And what they'll find is just a statue
Standing where the statue got you high
