back on the borderline one more time x2

Seven beers and still sober
It s time to change to something stronger
I cannot take this scene no longer
She could have told me its all over

Back in my home town
The old place it s still the same
But time can cast a spell over someone
And you can t go back again

Solo **Am** baserun **Em Em**

Back to the borderline one more time x2

Mister fill me another
Till I go crazy and it turn my mind around
Just pass that bottle one more time
I m slowly sinking down

Genie can I tell you
The shame of my disgrace
It s just love or rejection
For this borderline case

Back on the borderline one more time ... repeat and fade

Thats the whole song. Work the picking pattern out yourself it s simple but I m too lazy to tab it. Comments and criticism are always welcom but go easy on me, this is my first tab.
