I m a borderline case

**Cadd9** **Am** **Em** **G**  
back on the borderline one more time x2

Seven beers and still sober  
It s time to change to something stronger  
I cannot take this scene no longer  
She could have told me its all over

Back in my home town  
The old place it s still the same  
But time can cast a spell over someone  
And you can t go back again

Solo **Am** baserun **Em Em**

Back to the borderline one more time x2

Mister fill me another  
Till I go crazy and it turn my mind around  
Just pass that bottle one more time  
I m slowly sinking down

Genie can I tell you  
The shame of my disgrace  
It s just love or rejection  
For this borderline case

Back on the borderline one more time ... repeat and fade

Thats the whole song. Work the picking pattern out yourself it s simple but I m too lazy to tab it. Comments and criticism are always welcom but go easy on me, this is my first tab.
