

**Come On Back To Me  
Third Day**

Verse 1:

**Am**                                **Am/G**                                **D7(add4)**                                **Am**                                **C**                                **D7(add4)**  
Well you ve been hiding now for so\_\_\_\_\_ long and never understanding why

**Am**                                **Am/G**                                **D7(add4)**                                **Fsus2**                                **G**  
running far away from the truth and all along chasing after lies

**Am**                                **Am/G**                                **D7(add4)**                                **Am**                                **C**                                **D7(add4)**  
and i have loved you from the beginning long before you knew my name

**Am**                                **Am/G**                                **D7**                                **F**  
and even though you ve broken my heart i ll love you just the same i ll

**G**  
love you anyways

Chorus:

**F**                                **C**                                **G**                                **Am**                                **F**                                **C**  
Never mind your worries never mind your fears they can only take you far

**G**                                **F**                                **C**                                **G**                                **Am**  
from me and when you think theres nowhere left for you to turn well i got

**F**                                **C**                                **G**                                **F C G**  
all you want and everything you ll need come on back to me

Chords:(read vertically)
