

**My Time In Exile**  
**Third Eye Blind**

Album: DVD Hiding Out  
Tabbed by: Silf  
Tuning: Drop D

Ive been looking for a tab for this forever so i just figured it out as best i could and the most part it sounds pretty decent, any updates would be appreciated tho. Awsome song.

INTRO/VERSE:

e|-----0--0-0-2-2-2-0-----|  
B|-----3--3-----3~-|  
G|-----2--2-----2~-|  
D|----- (0)(0)~----- (0)-|  
A|----- (0)(0)~----- (0)-|  
D|----- (0)(0)~----- (0)-|

...basically the verse is just variations of D

CHORUS:

Bm                    A  
Oh...We have grown  
                         E  
Maybe I ve overstayed awhile  
                         G  
In my time in exile and  
Bm                    A  
Oh...Time has flown  
                         E  
And the only thing I ve learned  
                         G  
I want a life now of my own

All the Chords are the same each time the course comes around.

As for the ...more than chit-chat we listen to the streets bit its pretty much the as the verse, a little more creative with the hammer-ons and timing and stuff though.

SOLO:

its not very long but comes in at about 1:56

e|--0-3-2-----2-3/5-3-2-2h3p2-----2-3/5--3-2~-222h3p2-0~-----|  
B|-----3-----3-0~---3-3/5--3-3~-333-3-3-3~-----|  
G|-----|

D|-----|  
A|-----|  
E|-----|

Thats about it...it sounds best when you play the open chords from the chorus as follows

drop d:

Bm: x24432

A: x02220

E: 222000

G: 55500x
