

**Im Coming Round**  
**Thirdstory**

[Verse 1]

**Db**                **Fm**                                **Gb**  
I let my heart go somewhere I don't know

Forgot when it fell

**Db**                                **Fm**  
I can't seem to find it  
   **Gb**                                        **Ab**  
I need to remind it you found someone else

[Pre-Chorus 1]

**Gb**    **Ab**  
Well, you caught me cold when you kissed him  
                 **Gb**    **Ab**  
I was standing there, so sick  
Oh, oh

[Chorus]

**Db**                                **Gb**                                **Fm**                **Gb**  
I'm coming round, please don't say no  
   **Ab**  
Don't you come here anymore  
**Db**                                **Gb**                                **Fm**                **Gb**  
I'm coming round, please don't say no

Don't you come here anymore

[Verse 2]

**Db**                                **Fm**    **Gb**  
Thought I was just fine keeping a thick spine

Just a matter of time

**Db**    **Fm**  
You'd come to your senses  
   **Gb**    **Ab**  
Lay down your defenses and tell me you're mine

[Pre-Chorus 2]

**Gb**    **Ab**  
You caught me cold when you kissed him  
                 **Gb**    **Ab**  
I didn't mean to watch, but I did  
                 **Gb**    **Fm**  
And when you looked in his eyes  
                 **Ebm**    **Bbm**  
My heart was wondering why  
                 **Gb**    **Ab**

It could love so much but cannot touch, oh
