That s the majority of it, except for a little solo part which I tabbed out, decided it was crap, and then didn t bother retabbing as it s similar to parts. I m not really sure how accurate to the song it really is, but it sounds pretty decent on my current set-up of my fancy-shmancy Marshall 250DFX amp, Boss DS-1 Distortion Pedal and my Maverick X1 guitar.

Don t shoot me if you don t like it!
