Violin part again, same progression

Verse progression:

Drop the act

Let s not pretend

We both know this is going nowhere fast
I ve had more than enough
Of this pointless arguments
I ve had more than enough
I ve had more than I ve had more than enough

Repeat of the first verse

Chorus progression should work with the piano part too

Chorus again

It s pretty easy. When in doubt (such as the little wordless transitions between sections) stick with **F**.
