To pick you up and take you out

And though it's not enough you assure me that it's fine
C G
With windows down let's go for a ride

[Chorus]

Cause when I mess up, you never give up your love
Am F
Yeah I'm a fuck up, but you swear I'm enough
C G F Fm
And all I know that's true, is just how much I miss you
C G
Hold up, you're running away
Am F
I swear I told ya, it gets better today
C G F Fm (Once, Stacatto)
And all I know that's true, is just how much I love you

[Intro/Whistle]

C E7

You know you never seem to mind
When I get off late and wanna stay in for the night
We ll watch some Sunny it ll be alright
And when my world is upside down
You re always planted firmly, so firmly on the ground
We ll lay together without a sound

[Chorus]

Cause when I mess up, you never give up your love
Yeah I m a fuck up, but you swear I m enough
And all I know that s true, is just how much I miss you
Hold up, you re running away
I swear I told ya, it gets better today
And all I know that s true, is just how much I love you
