**F**            **G**            **Bb**            **F**  
Standing alone on a stage  
**F**            **G**                            **Bb**            **F**  
Star of the show, she s all the rage  
**F**            **Am**                            **D**  
It s sad to say they made her pay  
**D**            **Am**                            **D**  
They set her up they shot her down

(CHORUS)

**D**            **C**                            **D**  
Yeah, Judy laugh, and Judy cry  
**D**            **Am**                            **D**  
Yeah, Judy do, and Judy die... yeah

**F**            **G**                            **Bb**            **F**  
Standing alone, wanting to run  
**F**            **G**                            **Bb**            **F**  
She opens her mouth but no song come  
**F**            **Am**                            **D**  
Just one false move is all it takes  
**D**            **Am**                            **D**  
She s come too far for small mistakes

(REPEAT CHORUS)

**F**            **G**                            **Bb**            **F**  
She opened her eyes, looked at her face  
**F**            **G**                            **Bb**            **F**  
She s not the prize in the paper chase  
**F**            **Am**                            **D**  
There are so few who really fly  
**D**            **Am**                            **D**  
Let s put that bright life in her eyes

(REPEAT CHORUS)
