

Fly On The Wall
Thousand Foot Krutch

[Verse 1]

Em

The other night, I had a dream

Am

It was a world full of kings and queens

C

But it was cold, dark as the night

Em

We were the fire on the moonlit skies

Em

We werenâ€™t divided, we were the same

Am

And we were free but we all wore chains

C

We couldnâ€™t see it, but we created

Em

A place between truth and overrated

Em

If I could just see it all, just like a fly on the wall

Am

Would I be able to accept what I canâ€™t control?

C

And would I share what I saw, or just sit back and ignore

Em

Like nothing ever happened, have I seen you before?

G

Em

Iâ€™m on the run from the thief I let in-to my head

G

Em

I know, I hold the keys so donâ€™t be scared when I turn and shout

[Chorus]

C

D

I donâ€™t think I need you anymore

G

Em

Take your words and your lies and just beat it

C

D

I donâ€™t think I need you anymore

G

Em

Take the hurt and the pain I donâ€™t need it

C

D

I wanna live I wanna be the change

G

Em

We can all be kings and queens

C **D**
If we can just learn to believe

G **Em**
If we can just learn to believe

[Verse 2]

Em
We had a plan, to build a wall
Am
A great divide that would never fall
C
To separate us, from all the pain
Em
And keep our skeletons locked away

Em
And brick by brick we built it so thick
Am
That it blacked out the sky and all the sunlight
C
And one by one we all became numb
Em
We were making bullets to a broken gun

Em
If I could just see it all, just like a fly on the wall
Am
Would I be able to accept what I can't control?
C
And would I share what I saw, or just sit back and ignore
Em
Like nothing ever happened, haven't I seen you before?

G **Em**
I'm on the run from the thief I let in-to my head
G **Em**
I know, I hold the keys so don't be scared when I turn and shout

[Chorus]

C **D**
I don't think I need you anymore
G **Em**
Take your words and your lies and just beat it
C **D**
I don't think I need you anymore
G **Em**
Take the hurt and the pain I don't need it
C **D**
I wanna live I wanna be the change

G **Em**
We can all be kings and queens
C **D**

If we can just learn to believe

G **Em**

If we can just learn to believe

C **D**

I donâ€™t think I need you anymore

G **Em**

Take your words and your lies and just beat it

C **D**

I donâ€™t think I need you anymore

G **Em**

Take the hurt and the pain I donâ€™t need it

C **D**

I wanna live I wanna be the change

G **Em**

We can all be kings and queens

C **D**

If we can just learn to believe

G **Em**

If we can just learn to believe
