

**So Far Gone**  
**Thousand Foot Krutch**

-----  
So Far Gone  
-----

Thousand Foot Krutch  
Capo 3.

L.M

[Verse 1]

**Em**                **D**                **C**  
I know they say that the space between  
**D**                **Em**                **C**  
Can make it stronger than we ve ever seen  
**Em**                **D**                **C**  
They might be right but I disagree  
**D**                **Em**                **C**  
Cause I ve never felt stronger than when you re with me

**Em**                **D**                **C**  
Sometimes I wonder why you even care  
**D**                **Em**                **C**  
Cause even when I leave you re always there with me  
**Em**                **D**                **C**  
And like a candle makes a brighter place  
**D**                **Em**                **C**  
This mark you ve made on me can t be erased.

[Chorus]

**G**                **D**                **Em**  
I wanna be so far gone in you  
                         **C**  
So far nothing else will ever do  
**G**                **D**                **Em**  
I wanna be so far gone in you  
                         **C**  
In you..

[Instrumental]

**Em - D - C D - Em - C**

[Verse 2]

**Em**                    **D**                    **C**  
I ve stood alone and I ve fallen down  
**D**                    **Em**                    **C**  
Your hands were there to pick me off the ground  
**Em**                    **D**                    **C**  
Sometimes I cry cause I can t believe  
**D**                    **Em**                    **C**  
Your love is big enough to cover me

**Em**                    **D**                    **C**  
Sometimes I ve wondered if you re even there  
**D**                    **Em**                    **C**  
But when I feel far away you meet me there  
**Em**                    **D**                    **C**  
And like a candle makes a brighter place  
**D**                    **Em**                    **C**  
This mark you ve made on me can t be erased .. Yeah ..

[Chorus]

**G**                    **D**                    **Em**  
I wanna be so far gone in you  
                                 **C**  
So far nothing else will ever do  
**G**                    **D**                    **Em**  
I wanna be so far gone in you  
                                 **C**  
In you..

[Bridge]

**Em**  
I wanna be lost in you  
                         **C**  
Like a ship in the night  
                         **G**  
I wanna get lost in you  
                         **D**  
Underneath your sky  
                         **Em**  
I wanna be lost in you  
                         **C**  
Like a ship in the night  
                         **G**                    **D**  
So far gone tonight

[Chorus]

**G**                    **D**                    **Em**  
I wanna be so far gone in you

**C**

So far nothing else will ever do

**G**

**D**

**Em**

I wanna be so far gone in you

**C**

In you..
