Fat Cats - (Words and Music by Leftee) 2007

G **Em** **C** **D**

I woke up this morning fighting a tribal war.

G **Em** **C** **D**

Against the system, I fight it some more.

G **Em**

I can't understand why a man can't live,

C **D**
the life he wants to live.

G **Em** **C** **D**

Why it's always interrupted by something illegal.

G **C** **D**
I say the Fat Cats, Another Word for a Rat.
G

they're the Fat Cats, Yes I said they are the Fat Cats.

C **D**

Another Word for a Rat.

G **C** **D**

They're the Fat Cats, the symbol is an Elephant.

G **Em**
Now the people won't put up no more,
C **D**

with rotten to the core.

G **Em**

We've witnessed your illusions,

C **D**

We'll vote for some changes.

G **Em**

This Democratic, Bureaucratic system has

C D

*ucked it in our face.

G Em

They take the small man for granted,

C G

They re just a big disgrace.

G C D

I say the Fat Cats, Another Word for a Rat.

G

they re the Fat Cats, Yes I said they are the Fat Cats.

C D

Another Word for a Rat.

G C D

They re the Fat Cats, the symbol is an Elephant.

Notes: This is a awesome easy to play reggae rock song.The feel is Ska Reggae in the fasion of Marley or the English Beat. There is a version on spotify, and also on YouTube.

Threepeace is from Michigan. This song is very self explanatory, the band feels the current political administration is destroying our great country with oppressive greed and war.

Vote for some changes!!! Leftee played the Drums, Rhythm Guitar, Bass Guitar, Vocals.

Raul percussion guitar, Big R Lead Guitar.
