CAPO ON 1

(Verse 1)

**F**                            **C**   **G**                            **Am**                            **G**  
She checks her pulse, gotta know if her heart s still beating  
**F**                            **C**                            **G**                            **Am**                            **G**  
And the hospital s, not far if anything should happen here

**F**                            **C**   **G**                            **Am**                            **G**  
She s bored in a week, big dreams but nothing material  
**F**                            **C**                            **G**  
And I refuse to believe that love is for the weak  
**Am**                            **G**                            **C**  
I said I m not vulnerable

(Chorus)

**F**   **C**                            **G**                            **C**  
Hey lady, don t give up on me  
**F**                            **C**  
Don t burn your heart out love  
**Am**   **G**                            **C**  
Till we re ash over seas  
**F**   **C**                            **G**                            **C**  
Hey lady, said I don t wanna fight  
**F**                            **C**  
Like pretty girls need cowboys  
**Am**   **G**                            **C**  
I need you here tonight
