.::info

this song is originally played by a piano and so it doesn't sound the same miserable way when played by a single guitar. anyway i think that the chords are quite right. if you have any suggestions mail me at 414@gmx.net.

.::sound

playing this song on a single acoustic guitar sounds quite boring. so i tried out my electric guitar with an effect called cathedral. this effect has a very strong reverb and makes the guitar sound like a violin. if you have an FX-board look for a sound like this.
