No One There
Tiago Iorc

(**Am, C**)
When all you want is truth
And nothing can be said
They lie in front of you, instead
I sense there s something wrong
I m blinded by the same old lousy truths
With different names

```
              F
```
Everybody s going for it
```
            G
```
And there s no one there
```
  Am         C
```
No one there

(**Am, C**)
Despite this win or lose
Give more and more you get
So little room for regret
I choose to move alone
Making my mistakes
A point of view no one can take

```
              F
```
Everybody s going for it
```
              G
```
And there s no one there
```
                Am
```
Everybody tells you otherwise
```
          Dm
```
It s only fair

```
        F                     G
```
They ll try to fix you up, try to fit you in
```
   Am                     C
```
Try to make you proud, of what you ve been
```
        F
```
Who s to say what s good enough
```
     G
```
Or when it s safe to try?
```
     Am
```
When truth lies inside
```
     C
```
When truth lies inside

```
              F
```
Everybody s going for it

```
              G
And there s no one there
                 Am
Everybody tells you otherwise
            Dm
It s only fair

                 F
Everybody s going for it
                 G
And there s no one there
   Am          C
No one there
```
