F#   **C#**
They told me I m no good,
                                            Ebm
Wore me down like I knew they would,
                              Bbm
Like dreams are impossible,
         C#   **F#**
If you don t fit no more,
                                C#
Use me up and they let me go,
                  Ebm
Now I m crying solo,
                                    Bbm
Cut me fast and I m bleeding slow,
       C#   **F#**
Not the girl I used to know,

                              C#
And you feel you will never be heard,
                                    Ebm
So small in this great big world,
                        Bbm
but you re gonna make it,
C#   **F#**
I know you re gonna break it,

            C#
I know it hurts,
            Ebm
I know it burns,
                                Bbm
They cut with razor blade words,
       C#   **F#**
And you die a little,
                  C#

```
Know you re beautiful,
                              Ebm
You are worth so much more,
                                  Bbm
We will rise above it all,
C#             F#
Little by little

F#                                        C#
When you re tipping on a tight rope,
                                          Ebm
Your knees are shaking and you re losing hope,
                              Bbm
Keep your head up don t look down,
                      C#                          F#
Keep looking forward and ignore the crowd,
                                          C#
You will thank them for the pain,

For the disbelief,
        Ebm
The shame,

It s gonna be the loss,
        Bbm
Your gain,
      C#                  F#
Who needs them anyway,

                                      C#
So you feel you will never be heard,
                                      Ebm
So small in this great big world,
                          Bbm
but you re gonna make it,
C#                                      F#
I know you re gonna break it,

              C#
I know it hurts,
            Ebm
I know it burns,
                                  Bbm
They cut with razor blade words,
          C#          F#
And you die a little,
                      C#
Know your beautiful,
                              Ebm
You are worth so much more,
                              Bbm
We will rise above it all,
C#                F#
```

Little by little.

              C#
Don t blame yourself,
           Ebm
Don t let them win,
        Bbm
Don t hide away,
        C#   **F#**
This is a fight you can win,
         C#
Up in your room,
                   Ebm
Like no one cares where you ve been,
        Bbm
You re not alone,
         C#   **F#**
Just let the daylight in,

        C#
I know it hurts,
          Ebm
I know it burns,
                 Bbm
They cut with razor blade words,
    C#   **F#**
And you die a little,
          C#
Know you re beautiful,
             Ebm
You are worth so much more,
             Bbm
We will rise above it all,
C#   **F#**
Little by little,

        C#
I know it hurts,
