

Virginia, No One Can Warn You
Tift Merritt

Capo 5

 C D G C
With your eyes made up and your dress see thru
 C D G C
With your heart so big it don't know what to do
 C D G C
You're my favorite thing my sweet cavalier
 Am D
You have saved my life, I got to leave you here

Refrão -----

 G D
Oh Virginia, no one can warn you
 Em C
Oh Virginia, I have tried to
 G D
When the winter comes, how the cold moves thru
 C D G
Oh Virginia, no one can warn you

I can not explain how you should begin
I can't give you word, it won't all cave in
There's no good way home, there's no place to rest
There's no room down here for a pretty mess

Chorus

You don't know it yet with your brand new kiss
You don't want to stay here and live like this
The worst I could do, oh, what would I be
If I kept for mine something better than me

Chorus
