          G                  D  
Oh Virginia, no one can warn you  
          Em                  C  
Oh Virginia, I have tried to  
          G                          D  
When the winter comes, how the cold moves thru  
          C          D          G

-----

I can not explain how you should begin  
I can?t give you word, it won?t all cave in  
There?s no good way home, there?s no place to rest  
There?s no room down here for a pretty mess

You don?t know it yet with your brand new kiss  
You don?t want to stay here and live like this  
The worst I could do, oh, what would I be  
If I kept for mine something better than me

Chorus
