Verse 1:

**Dmaj7**            **Esus4**                            **Dmaj7**  
I met Horatio five years ago  
                 **Esus4**                            **Dmaj7**  
outside of Munich on the way to Rome  
                 **Esus4**                            **Dmaj7**  
it was 45 degrees and I could barely breathe  
                 **Esus4**                            **Dmaj7**  
he waved and said hey come sit by me  
                                 **Esus4**                            **Dmaj7**  
I was scared at first cos when he spoke it wasn't very soft  
                 **Esus4**                            **Dmaj7**  
he told me about the life long love of his heart  
                 **Esus4**                            **Dmaj7**  
had a t-shirt on that said we're all gonna die alone  
                 **Esus4**                            **Dmaj7**  
I still believe that's true oh I truly do

Chorus:

**F#m**                            **A**  
I want you to notice  
                 **Dmaj7**  
I want you to care  
                 **Esus4**                            **F#m**  
oh Horatio, oh Horatio  
**F#m**                            **A**  
I want you to notice  
                 **Dmaj7**  
and I want you to care  
                 **Esus4**  
oh Horatio,  
                 **Dmaj7**            **Esus4**  
please don't go  
                 **Dmaj7**            **Esus4**  
please don't go

Verse 2:

he was 22 unemployed with a perfect smile  
on his way to Paris no I never asked why  
his english was as bad as mine but I will  
remember those hours for the rest of my days
