DUST ME OFF - Tilly & The Wall

The song is very electric with palm muted power chords. These chords are approximations of what would be played if you were to strum the whole guitar. If you are going for full accuracy then you would just play the root notes of each chord.

Tuning: Standard (EADGBE)

**C**  
Sometimes I don't feel alright, keeps me shaken up all night  
**F**  
And there's nothing I can do, but I want to talk to you  
**C**  
This shit is making me feel bad, I'm so sick of feeling sad  
**F**  
Why can't I shake this mess, keeps on running through my head  
**C**  
I can't get out of bed, stomach sick, dizzy head  
**F**  
Singing helps alright, but I've been singing all night  
**C**  
Try to open up my eyes, take some time to realize  
**F**  
Sometimes shit won't feel alright, got to remember to fight...

**Am** **G** **C**  
Off the darkness that comes in sometimes  
**Am** **G** **C**  
Turn that sorrow into something that feels right  
**F** **G** **C**  
You're a true friend I can count on when I'm blue  
**F** **G** **F** **C**  
You pull me up, you dust me off, you pull me through

**C**  
Sometimes luck's not on my side, keeps me shaken up all night  
**F**  
And there's nothing I can do, but I want to talk to you
