Intro: High

A **D**
The sun has passed from overhead
B **E**
Let the night come in, let the night walk through your door
A **D**
For every sleep spent in our beds
B **E**
We will push our feet so hard the room will tear
A **D**
In the carnival with smiles our faces glow
B **E**
Oh the dark can make us feel so bold
A **D**
Thereâ€™s no cold to make us want to stay at home
B **E**
Every doubt in turn explodes
A **D**
We all could pass right through
B **E**
We all have nothing left to lose
A **D**
Itâ€™s not the fire, nor the warm drink
B **E**
That heats my heart and lifts my happy legs
A **D**
Your strong hand has kept me here
B **E**
No I will not go, no I will not say goodnight
A **D**
I was told this townâ€™s so small it would not grow
B **E**
I was told that here I would feel alone
A **D**
Thereâ€™s no cold, nor snow to make us lose our souls
B **E**
Light we shine and once we fall
A **D**
And we all could pass right through
B **E**
We all have nothing left to lose
A **D**
