Tim Baker (Hey Rosetta!)

[Intro]

C

[Verse]

C F Em
Slide like a spirit, through these same old roads
F Am G F
You ve been haunting these hills since the morning you were born

C F Em
Now the cracks in the pavement, are the cracks in your heart
F Am G F
You go over the same old faults every time you walk to the bar

C F Em
Ain t you wet when you get there, whether rain or tears or sweat
F Am G F
and the wind shaking the panes, it s the same as in your chest

F C/G F/A C/G
yes, It s the same out there,
F C/G F/A C/G
as it is in here,
F C/G F/A C/G
yes, It s the same out there,
F C/G F/A C/G
as it is in here

[Verse 2]

C F Em
Why should it be different, should it be anything but that
F Am G F
should we open our mouths and spit out California sand

C F Em
No we sing what we re given, into a piece of shit P.A
F Am G F
We sing Grey Foggy Day, we sing No Change in Me

C F Em
Yeah but it s arm in arm in arm and ain t it loud enough to stun
F Am G F
Hearing them all heaving along into the one same song

F C/G F/A C/G
oh, is it the same out there,

F C/G F/A C/G
as it is down here?
F C/G F/A C/G
yes, It s the same out there,
F C/G F/A C/G
as it is in here

[Bridge]

D G D
so pull your cloak around me now
D G Bm
pull your cloak around me now
D G Bm G
pull me close and keep the cold night out

A G A
Oh lean in to me
A G D
So you re near to me now
A G A
once a stranger to me
A G D
now you re the song in my mouth

D D G F#m F#m G Bm A G

Laladedahdah...

[Outro]

C F Em
Slide like a spirit, out to the icy steps
F Am G F
feel the night on your face, the mist on your lips
C F Em
and you pull the cloak around you, as you listen to the wind
F Am G F
and you hum the refrain, as you take the hill again
