For the days when we smiled

and the hours that ran wild
With the magic of our eyes
and the silence of our words

This song is from the album Goodbye and Hello and there s an acoustic version on the double live album Dream Letter.

The song has a 3/4-beat and a "|" represents a measure mark. Just strum the acoustic and let your voice sing like Tim s and it will sound like....?! You could try to incorporate the harmonica solo in your guitar playing or maybe whistle that part if you can t play the harmonica (I can t).
