Album: Honeyburst  
Tabbed by: GWiZ (gamewizard@get2net.dk)

F#9: x,9,11,11,11,9  
^ just means barre in 9th  
I play the E like this x,7,9,9,9,7  
Sometimes I don t use the thin e, and do a barre with my littlefinger. It s  
a bit easier.

A is played with barre in 5th: 5,7,7,6,5,5

As always, if in doubt drink more.  
If in doubt about the tab/chord send me a mail. ;-)

**H F#9**  
Something sweet  
**H F#9**  
Everytime we meet  
**H G#m C#m**  
There s no doubt about it  
Riff1 **F#**  
But I wish I knew  
Riff2 **D#**  
What I m supposed to do  
**E**

With you Sirene

**H F#9**  
Cause you pretend  
**H F#9**  
to be more than a friend  
**H G#m C#m**  
this is the sweetest feeling  
Riff1 **F#**  
But I don't understand  
Riff2 **D#**  
If it's a part of a plan  
**E**  
To be lying  
**F#**  
to me Sirene

**H**  
Still tonight I've failed for  
**C#m**  
The stars in your eyes  
**A F#**  
I apologize  
**H F#**  
But I want you to know  
**H**  
That my heart is broken  
**C#m**  
My high is low  
**A F# H/Hsus4**  
That's how far you go

**H F#**  
I can see  
**H F#**  
what you're doing to me  
**H G#m C#m**  
But I don't know the answer  
Riff1 **F#**  
And I just couldn't take  
Riff2 **D# E**  
If I make the mistake of not trying

**H F#**  
But easy come  
**H F#**  
And easy go  
**H G#m C#m**  
And I don't wanna cry about it

Riff1           **F#**  
Now that I ve got it clear  
Riff2           **D#**  
That you only appear  
**E**  
To be lying  
**F#**  
To me Sirene

**H**  
But, tonight I ve falled for  
**C#m**  
The stars in your eyes  
**A           F#**  
I apologize  
**H                   F#**  
But I want you to know  
**H**  
That my heart is broken  
**C#m**  
My high is low  
**A           F#           H/Hsus4**  
That s how far you go

(modulates 2 semitones up)

**C#**  
Ohh  
**D#m**  
Ohh  
**H           G#**  
I apologize  
**C#                   G#**  
But I want you to know  
**C#**  
That my heart is broken  
**D#m**  
My high is low  
**H           G#           C#/C#sus4**  
That s how far you go
