```
Out Of This World
Tim Finn
[Intro]
GDCGDC
[Verse 1]
            D
There s vapour flowing like a bridal gown
 G D C
From the rocket ship that we re counting down
And love is leaving for the cold of space
It s a mystery, it s our saving grace
[Chorus]
         G C D
Out of this world with you
           Am C
Searching for life I never knew
        G C D
Out of this world, it s true
There s no limit on the things we ll do
Out of this world
[Bridge]
DCGDC
[Verse 2]
G D
              С
It s only when I look into your eyes
            D
I can see beyond what I fear inside
            D
And I love the way that you reminded me
How it all belongs to eternity
[Chorus]
         G C D
Out of this world with you
          Am C
Searching for life I never knew
         G C D
```

Out of this world

Out of this world

G D C

Out of this world with you
