Intro: Main riff 4x

Verse: w/main riff

Its too much theres too much between us
The years of bags we cant begin to unpack.

Interlude: C Am C F

Verse: w/main riff

I thought that we were different,
We swore wed never cave
To these suburban doldrums
The zeitgeist of our age.
And theres no more charity Yeah,
we both stopped servicing
But were definitely missionary:
Our official position.

Pre-chorus:

```
F                      Em
Maybe were getting older,
Dm                      Am
Maybe our hearts are beating slower
F                      Dm
Or, maybe we got tired of the same old dessert,
Am                      C
We grew up in a world of thirty-one flavors.
F                      Dm
Maybe were just tired of this vanilla existence.
```

Chorus: w/main riff

Cold love is all that we know.
Cold love, no words, no emotion.
Cold love dont look me in the eye.
C **F**
Cold love; clean up, kill the lights.

Main riff 2x

F **Em**
Maybe youve gotten sick of it,
Dm **Am**
Or, maybe Im just inadequate.

w/main riff
Or, maybe this is stupid
yeah, maybe were just chumps
Riding this horse and buggy
Of antiquated love.
We dont know where its taking us, but
we dont know where we wanna go, so
we hold on and hope for happiness
We hold on so were not alone.

Pre-chorus:
The sheltered life of a couple,
Its like living inside a bubble
And, god forbid, Cupid ever finished
What he started. Instead he left us
Stranded and broken-hearted.
One more shot of Cupids
Dart, this bubble could have popped.
Instead

Chorus
Cold love is all that we know.
Cold love, no warmth, no devotion.
Cold loveit only takes a few minutes.
Cold love; let me know when youre finished.

Cold love Its all that we know.
Its cold, cold love.
Its all that we know.
