

Telescope
Tim Legend

[Intro]

F C Am D C F D G Am D C

[Verse 1]

F **G** **Am**
I was looking at the sky, it opened up
C **F**
Saw you coming down, like Gabriel
G **Am**
And my will began, right then and there
C **F**
Not even the angels could compare

[Chorus]

G **Am**
A sight of, like a telescope
C **F**
Just you and I, lost in the moment
G **Am**
You pull me close, and kiss me slow
C **F**
And everything comes into focus
G **Am**
A sight of, from a telescope
C **F**
But I m just happy to be there
It s beautiful

[Instrumental] x15

G Am C F G Am C F
Beautiful

[Verse 2]

G **Am**
I climb up to the stars, they stand in line
C **F**
Waiting for the change to cross your mind
G **Am**
Maybe all we got, is this one night?
C **F**
But I see forever in your eyes

[Chorus]

G **Am**
A sight of, like a telescope
C **F**
Just you and I, lost in the moment

G **Am**
You pull me close, and kiss me slow
C **F**
And everything comes into focus
G **Am**
A sight of, from a telescope
C **F**
But I m just happy to be there

It s beautiful

Beautiful

[Chorus]

G **Am**
A sight of, like a telescope
C **F**
Just you and I, lost in the moment
G **Am**
You pull me close, and kiss me slow
C **F**
And everything comes into focus
G **Am**
A sight of, from a telescope
C **F**
But I m just happy to be there
