Verse 2

Your thighs and buttocks are so holdable

You always do what you are toldable

And if we argue you just foldable

Controllable consolable you.

My mates all reckon you are suitable

I took you around to watch the footable  
And Steve and Gary said you're rootable  
Commutable, refutable you.

You're never sensitive or tickley  
When I rub you my skin goes prickerly  
It's know an static electricity  
Felicity when I'm kissing you.

Chorus 2

Your skin is so smooth I couldn't afford you with hair  
You have all the holes real girls have got plus one for the air  
Your problems are simple, I don't need my Masters in Psych  
To know if you get down I just perk you right up  
With a couple of squirts from the pump off my bike.

Verse 3

You never wake up when I snore at all  
A trait which I find quite adorable  
You have a box and you are storable  
Ignorable, back-doorable you.

Any sexual position's feasible  
Although you don't bend at the knees at all  
Your hooters are so firm and squeezable  
Increasable, un-creasable you.

You don't complain about my hairy back  
Or about the inches that downstairs I lack  
You're not disgusted by my furry crack  
Burt Bacharach, Jack Kerouac ooo.

Now birth control is not an issue  
I clean it all up with a tissue  
I bet my jealous friend all wish you  
Were insatiably inflatably theirs.
