The same great peace that calmed the sea hallelujah is living in me

And what, what I believed in your power and I really lived it

G

What, what if I believed Christ in me

What if I believed that

G

I would lay my worries down

Em

See these hills as leveled ground

What if I believed Christ in me

Then I would praise you with my life

Let my story lift you high

What if I believed Christ in me

The same great love that casts out fear

The same compassion that draws us near

Hallelujah is living in me

Same great mercy that I received

Amazing grace for a wretch like me

Hallelujah flowing through me
