Travelling the seven seas
                                                        C
Setting sail to go around the world, around the world
Open water, open heart
                                                C
Open invitation to be whirled around the world
Dadd9
Spread your wings and spread them wide
                                             Em
See if they'll reach all around the world
                Dadd9
I just wanted to fly
Like a leaf in the wind
A leaf in the wind
                Dadd9
But if you wanna fly
                       fly
You've got to travel light
                               light
                                C
And make yourself paper thin

Paper thin
\mathbf{Em}
Pack a bag but pack it light
You can't carry much around the world, around the world
Even what you hold dear of who you are inside
Em
Could be too much dead weight for this ride around the world
If you spread your wings out wide and thin
                                                          Em

Just pray they'll hold you up till your home again
