Notes on chords:

For the Fmaj7, you can play a little more accompaniment by sometimes (listen for it) throwing the F back into it, like so

or

| | |
|-------------------|----------------------|
| -0h1-0h1-0h1-0h1- | -5---5---5---5----- |
| -1---1---1---1--- | -5h6-5h6-5h6-5h6---- |
| -2---2---2---2--- | -5---5---5---5----- |
| -3---3---3---3--- | ----- |
| ----- | ----- |
| ----- | ----- |

For the **Gsus4-G G**, something like

-3-3---3-3----|
 -1-1h3-3-3----|
 -0-0---0-0----|
 -0-0---0-0----|
 -----2----|
 -----3----|
