Intro (F G F G C)

FA SOL FA SOL DO

FA SOL
I ll go to the moon just to get close to you
FA SOL DO
But sitting in your room I feel so far, far, far away
FA SOL
You know what to do to pull me into you
FA
Cause every time you move
SOL DO
you take my breath, breath, breath away.

FA SOL
I wanna hear you, oh Suddenly off my feet
FA
So will you come through? Oh
SOL DO
And I ll play you on repeat, oh.

FA SOL
You re singing a sad song, but you make it sound happy
FA SOL DO
You got the perfect words to hurt me so, hurt me so good
FA SOL
You re singing a sad song, but you make it sound happy
FA
You re playing my heart
SOL DO
and I m falling apart just like I knew I would.

FA SOL
Tell me, why I save every last dance for you?
FA SOL DO
And everything you say, I memorize it all
FA SOL
You know how to get me higher even when I wanna cry
FA
But you re setting me on fire
SOL DO

just to warm, warm, warm you up.

FA SOL
I wanna hear you, oh Suddenly off my feet

FA
So will you come through? Oh
SOL DO

And I ll play you on repeat, oh.

FA SOL
You re singing a sad song, but you make it sound happy

FA SOL DO
You got the perfect words to hurt me so, hurt me so good

FA SOL
You re singing a sad song, but you make it sound happy

FA
You re playing my heart
SOL DO

and I m falling apart just like I knew I would.

FA SOL
Everything about you kinda makes you sound happy

FA SOL DO
How many words for you to hurt me so, hurt me so good

FA SOL
Everything about you kinda makes you sound happy

FA
And I m falling apart just
SOL DO

like I knew I would, just like I knew you would.

FA SOL
Hear you deep inside of me

FA SOL DO
Your back and forth is slowly killing me

FA SOL
Don t just leave me quietly

FA SOL DO
Play your song and keep convincing me.

FA SOL
You re singing a sad song, but you make it sound happy

FA SOL DO
You got the perfect words to hurt me so, hurt me so good

FA SOL
You re singing a sad song, but you make it sound happy

FA
You re playing my heart
SOL DO

and I m falling apart just like I knew I would.
