

Titus Andronicus
Titus Andronicus

Titus Andronicus - Titus Andronicus

Tuning for this song is in all probability standard but my guitar was still tuned a $\hat{A}\frac{1}{2}$ step down.

Thus, tuning: $\hat{A}\frac{1}{2}$ step down to **E_b** or **C=B**, **F=E**, **G=F#**, etc.

Chords with a * I prefer to play high, but whatever suits you best.

I didn't really count the measures for the intro but you'll probably figure it out.
