

Brother

Toad the Wet Sprocket

Brother by Toad the Wet Sprocket

It sounds so so without a capo but to get the real sound, put the capo on the fourth.

The capo makes it a lot easier because the song is originally in the key of B. And

unlike every other lyrics page online, these are the real words. Hope you enjoy cause

it s a great song.

Chorus 2

Outro

The last prechorus and chorus are the same chord patterns, just with different timing.
All the outro is, is jut G C G C repeated, so you can just go with it until you re blue
in the face and maybe throw another chorus in there somewhere.
