All guitars are capoed at second fret. Intro and verses:

Gmaj7

Fmaj7

The notes in parenthesis are only played during the verses. During the secong and third verses, another guitar comes in and strumg G-F over these two figures.

At the end of the verses, the last measure is an E chord changing to Esus, and back again to E:

```
|------|
|--0-----0--|
|--1--1h2--1--|
|--2--2---2--|
|--2--2---|
```

C

I will not take these things for granted

C D (

I will not take these things...

The second guitar just picks through these chords, while the first one strums them.

G

Then the second verse, same guitar as the first, but starting on the Fmaj7 chord, not the Gmaj7.

After the second verse is the prechorus, I m listening..., which is simply Asus2 - E, repeated, and then ending on a G:

The second chorus is much the same as the first:

C

I will not take these things for granted

C D G

I will not take these things for granted

C Em

I will not take these things for granted

C D G

I will not take these things...

The last verse and prechorus are the same as before. The ending chorus – solo is just the below line, played over ${\tt C}$ – ${\tt G}$, repeated until the fade out.

C (played 3x)	C	G
